Effect of remdesivir post hospitalization for COVID-19 infection from the randomized SOLIDARITY Finland trial

Nature Communications, October 2022 ; doi.org/10.1038/s41467-022-33825-5

Abstract

The study reports the first long-term follow-up of a randomized trial (NCT04978259) addressing the effects of remdesivir on recovery (primary outcome) and other patient-important outcomes one year after hospitalization resulting from COVID-19.
